For a final check, please select all the text of your abstract ("Select all" from the "Edit" menu) and check if the Font box shows "Arial" font. If not, it means that you have included a font different from "Arial". In this last case, please check your abstract and identify where the different font has been used. This font must be replaced by an "Arial" symbol font.

Body of the abstract: the body of the abstract should not exceed **250 words**.
